J Street National Jewish Survey

March 2026

n = 800 Jewish registered voters

Conducted March 24-26, 2026 via text-to-web

Margin of error = +/- 3.5 percentage points

Key Findings – AIPAC Efforts In Democratic Primaries

2

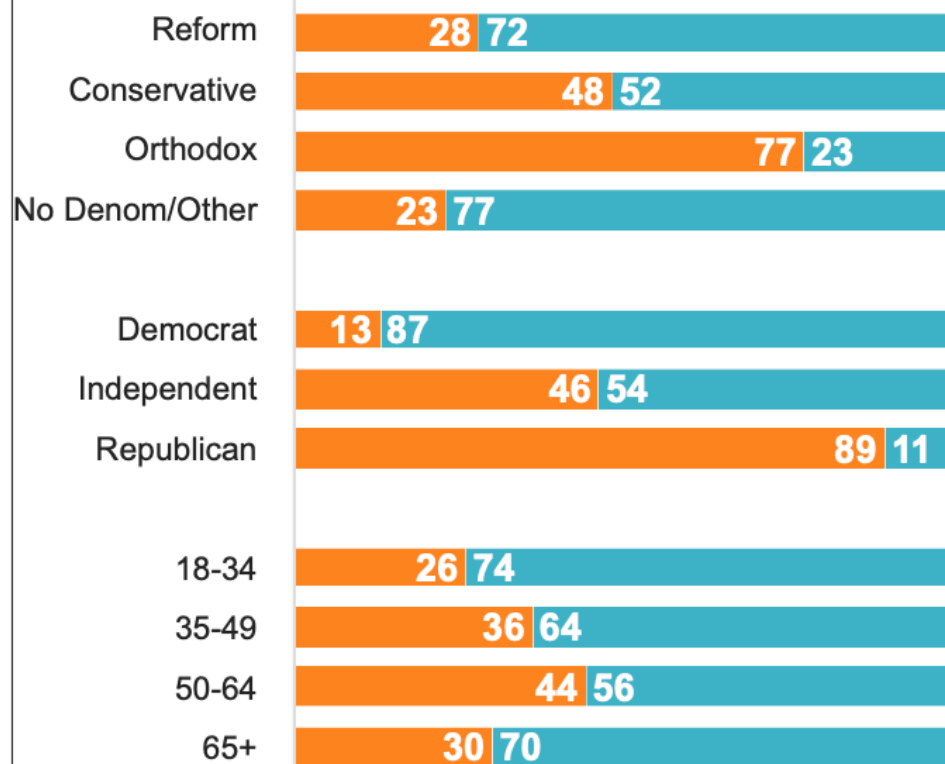

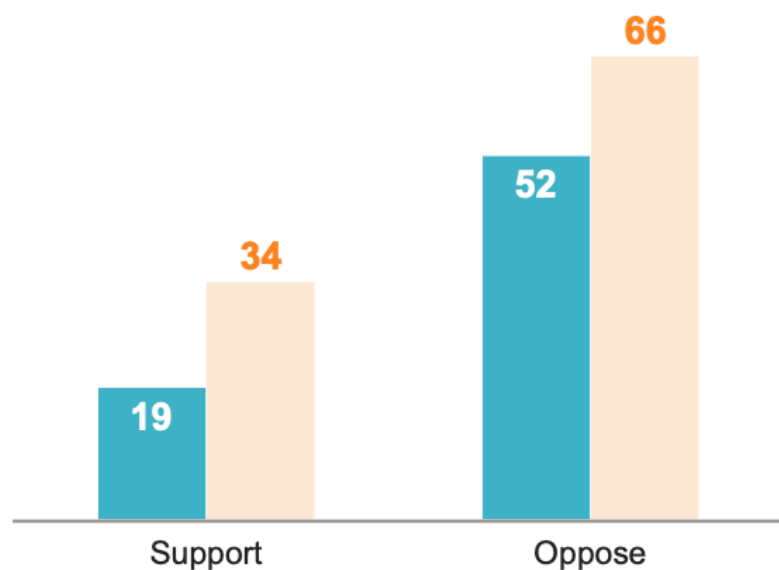

- **As AIPAC's recent Independent Expenditure campaigns in Democratic primaries in New Jersey and Illinois have received a great deal of media coverage, this survey examined Jewish voters' attitudes toward AIPAC's spending.**
- **There is overwhelming opposition to AIPAC's spending money raised by Republican donors in Democratic primaries against candidates who are critical of the Netanyahu government.**
 - 66 percent oppose the AIPAC spending, including 52 percent strongly oppose.
 - Only Orthodox and Republican Jews support the spending.
- **When Jewish Democrats are asked whether they are more or less likely to support a candidate who AIPAC endorses in a Democratic primary, most people say it makes no difference (47 percent) or they are less likely (40 percent) – and there is a remarkable difference by age.**
 - 66 percent of Jewish Democrats under 35 years say they are less likely to vote for a Democratic primary candidate endorsed by AIPAC.
 - 46 percent between ages 35-49 say less likely and 41 percent say no difference.
 - Most Jewish Democrats ages 50-64 (60 percent) and over 64 years (64 percent) say no difference.

Most Jews Oppose AIPAC Spending In Democratic Primaries

3

AIPAC Dem Primaries

As you may know, the American Israel Public Affairs Committee, also known as AIPAC, has raised tens of millions of dollars from Republican donors to spend against candidates in Democratic primaries who are critical of the Netanyahu government. Do you support or oppose AIPAC spending money raised from Republican donors in Democratic primaries?

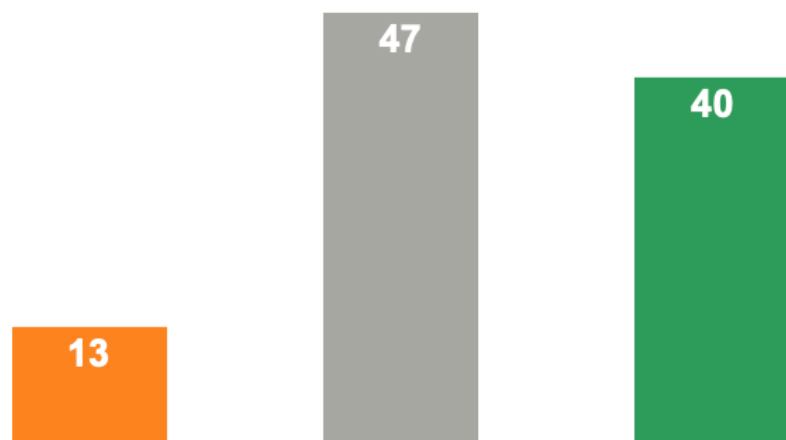

AIPAC Endorsement In A Dem Primary Moves Younger Jews Against AIPAC's Candidate; Makes No Difference With Older Voters

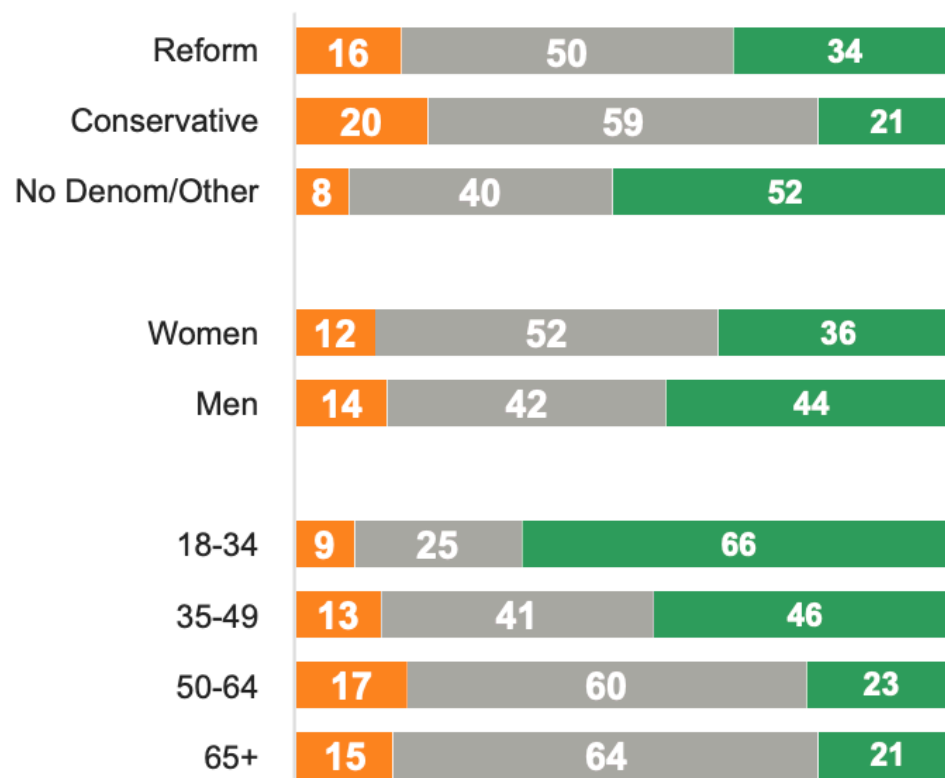

4

AIPAC Endorsement

● More likely ● No difference ● Less likely

(IF DEM/LEAN DEM)* *If AIPAC endorses a candidate in a Democratic primary for Congress, does this make you more or less likely to support that candidate, or does it not make a difference?*

*n=562

- GBAO designed the questionnaire for the national survey of American Jews who are registered voters. The survey was conducted March 23-25, 2026, and included interviews with 800 self-identified Jewish voters. It is subject to a margin of error of +/- 3.5 percentage points at the 95 percent confidence level.
- The survey sample was drawn from a national voter file, consisting of all registered voters in the United States. Respondents with a likelihood of being Jewish, based on their first or last name or their geography, were contacted by text, and then took the survey on a secure link on their phone or computer if they identified themselves as Jewish.
- All respondents were asked at the beginning of the survey whether they consider themselves Jewish, using the same question wording as the 2020 Pew Research Center study, “Jewish Americans in 2020.”
- The sample was weighted to Pew’s demographic results on key variables, such as gender, denomination, age, and synagogue membership.
